

At UPS Freight® Truckload, we've got you covered

You already know UPS® can handle your package and LTL shipments. Did you know you can also trust us with your truckload shipments?

UPS Freight Truckload Services

Whether you have occasional or regular truckload shipments, we make it easy for you to secure the equipment you need, when you need it. Our truckload account managers are trained to provide the right solution for each shipment, whether it be finding a backhaul on UPS assets, using rail intermodal, or working with our network of thousands of partner carriers to find capacity and specialized moves.

Your account manager will provide a single point of contact and personalized service for all of your needs.

UPS Freight Truckload can provide:

- Standard dry van (53' trailer)
- Flatbed
- Other specialized equipment
- Temperature Controlled
- Intermodal
- Warehouse moves

Count on the reliability of UPS for direct truckload service.

Call **888.682.4652** and we'll get you covered.

WE LOGISTICS™

UPS Freight® Truckload Intermodal

We Bring Reliability to Rail Transport

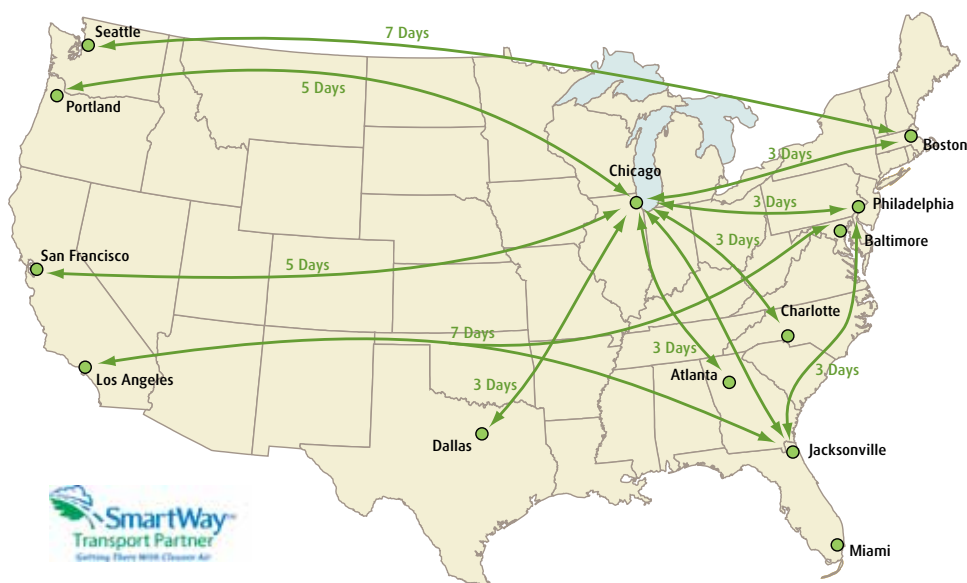

Get on the fast track to greater efficiencies and a reduced carbon footprint by using our intermodal services for your long-haul moves. We combine more than 30 years of experience in intermodal logistics management with the transportation expertise of UPS, a world leader in advanced transportation systems.

Expedited Intermodal

With transit times equal to Truckload, our Expedited Intermodal service provides you a cost-effective alternative for longer moves. We use the same trains that our UPS package delivery network uses for reliable coast-to-coast service and priority loading and unloading.

Standard Intermodal

With our national container coverage, we provide doublestack container service for the most cost efficient solution when transit times are less critical. The map below shows our Standard Intermodal time in transit.

About UPS Freight Truckload

UPS Freight Truckload is the full truckload division of UPS Freight and a leading provider of Dedicated Contract Carriage, Dedicated Capacity, Truckload, and Intermodal truckload services. As part of the UPS enterprise, our customers have access to a full portfolio of package and freight delivery services, moving goods by ground, air, rail and ocean. From envelopes to jet engines, UPS moves at whatever speed you need, to anywhere in the world.
